

HOW TO MAKE AN ECOBRIK!

What you will
need!

- a 2L bottle
- a poking stick
- unrecyclable plastic
- a label with your name your class and the date.

- First you need to clean out your bottle.
- Next you need to fill up your bottle with unrecyclable plastics.
- Use your poking stick to push down the plastic.
- Fill your bottle up until you can't squeeze any thing else in.
- Weigh your brick it should be 650g atleast.
- Now finally take your ecobrick into school.
- Oh and don't forget to add on your label.
