

NO WAY DOWN

- 1 Why are we trudging up the mountain?
Why are we battling the storm?
We could be safer in the valley,
We would be comfortable and warm.
Can't feel my toes, can't feel my fingers,
Can't see my hand before my face,
We must be going round in circles,
I'm sure I recognize this place.

CHORUS *There is no way up and there's no way down
And the mountain's losing its appeal,
We must get away or we'll freeze today,
We'll become a dragon-ready meal!
There is no way up and there's no way down,
There's a deadly dark before the dawn,
There is no way forward and no way back,
Stuck between the devil and the storm.*

- 2 We came up here to fight a monster,
We came to banish and prevail,
But we can't even beat the weather,
We will all perish in the gale.
Our voices echo down the valley,
Our cries for help are not received,
Our fate is sealed here in the blizzard,
Our tale will never be believed.

Echoes

Our voices echo down the valley,
Our cries for help are not received,
Our fate is sealed here in the blizzard,
Never be believed.

CHORUS

No way down.
No way down.
No way down.

All

No way down!

No way down, no way down, no way down.
No way down, no way down, no way down.
No way down, no way down, no way down.
